

i-ONE DRILLS

**Higher Performance with
an Economical Edge**

Keep Your Productive Edge in Cast Iron and Steel.

From its multi-layered-coated micro carbide inserts to its corrosion-resistant nickel-plated premium steel tool holder, the i-ONE Drills set new standards in productivity and affordability. For superior removal rates, the i-ONE insert comes with our exclusive H-Coating technology, so it goes through the toughest cast iron and steel with superior wear resistance.

Its optimized point geometry and flute shape allow excellent centering, outstanding efficiency and high evacuation rates. A fool-proof interface results in worry-free insert change-out. And for fast, secure clamping, the Torx Plus® screw provides unsurpassed convenience and stability.

Keep your productive edge with the versatile and exchangeable i-ONE Drills available in insert sizes from .393 to 1.328 in. / Ø10 to Ø33.73mm, with drill bodies standard in 3XD, 5XD, and 8XD.
